ABOUT ME

As a dedicated student with a passion for software development, I am eager to contribute to innovative projects and solve complex problems through programming.

EDUCATION

Computer science student | National school of computer science ENSI

09 2021 – 07 2024

Manouba, Tunisia

Engineering studies preparatory | Monastir Preparatory Engineering Institute IPEIM

09 2019 – 07 2021

Monastir, Tunisia

EXPERIENCE

Summer Internship | Proxym IT

June 2023 – September 2023

Sousse, Tunisia

- Developed a versatile Android freelance app in Kotlin, seamlessly integrating diverse freelancer features to enhance user experience.
- Designed user-friendly interfaces to improve accessibility and usability.

Android Studio Kotlin Firebase Jetpack Compose

PROJECTS

Monopoly game |

November 2021– February 2022

- Developed and executed a social game, 'Monopoly', using the Qt framework.
- Implemented various mechanics, design user interfaces, and test its performance.

C++ Qt GUI

Personal website |

March 2022– April 2022

- Designed and developed my personal website using React Js.

React Js Bootstrap

Freelance platform "TuniJob" |

 June 2022– August 2022

- Designed and built 'Tunijob,' a Tunisian platform connecting job seekers with providers using the MERN stack, facilitating access to meaningful employment opportunities.

React Js Node Js Mongo DB Express Js

School dropout risk prediction platform |

 December 2022– Mai 2023

- Designed and built a predictive student dropout risk model using Angular, Flask, microservices, and data analysis as part of a development project.

Machine Learning Angular Flask Microservices

Workout tracker platform |

 September 2023– October 2023

- Conceived, designed, and developed an intuitive and user-friendly workout tracker application, offering a seamless experience for fitness enthusiasts.

React Js Express Js MongoDB JWT

EXTRA-CURRICULAR ACTIVITIES

Project manager | [Open Source Software ENSI Club](#)

 September 2022 – September 2023

 Manouba

- Fostering awareness of open-source culture by providing Linux training sessions to educate individuals about its practices.

Beta Microsoft student ambassador | [Microsoft Student Ambassador Program](#)

 November 2021 – October 2023

 Online

- Enhancing leadership and community-building skills through workshops and student engagement initiatives.

Active member | [ENSI association of robotics](#)

 September 2021 – September 2022

 Manouba

- Collaborating with fellow students to organize Robotics related events.
